Resilience is CONSTANT™

We do it differently. We provide niche resilience services in the defense and homeland security space. We support our comprehensive, customized plans with reference guides. We use industry best practices and leading technologies to enhance our training and exercise deliveries. Our expertise in recruiting and staffing allows us to quickly provide highly qualified staff for surge and steady-state needs. Our solutions in marketing and outreach include social media, graphics, imaging, and language that reflect the communities we serve.

We spotlight past performance across the Federal government below:

FEMA Qualification System (FQS) Curriculum Development and Management

Over multiple contracts, CONSTANT has led the completion of existing or incomplete courses and the development of new courses for FEMA's FQS curriculum. FEMA requires rapid development processes in a condensed time frame to bridge gaps in the curriculum to develop FEMA's expeditionary workforces. Each course requires collaboration between subject matter experts and our instructional systems specialists to create effective position training courses that capture the essential aspects of the position in support of mission needs.

CBP Executive Secretariat Taskings and Correspondence, Strategic Communications, and Knowledge Management

CONSTANT is in a multi-year engagement to provide administrative, strategic, and knowledge management support to the CBP Immediate Office of the Executive Assistant Commissioner Enterprise Services (ES). Our services support the ES to build an organizational identity, improve decision making, and assign decisions to appropriate organizational levels. Working with the Chief of Staff, Deputy Chief of Staff, Executive Officer, and other ES Staff, CONSTANT capitalizes on our contextual understanding of the ES culture, priorities, task management and communication processes to carry out the ES Front Office strategic objectives and foster continuous organizational improvement.

DTRA Technical Reachback and Interagency Modeling and Atmospheric Assessment Center (IMAAC) Outreach

CONSTANT has provided a suite of support to DTRA. This includes our provision of specialized staffing solutions for DTRA Technical Reachback, where staff provide support with new and emerging threats and decision support capability for planning, operations, and post event analysis. We also lead an extensive outreach and advertising program on behalf of FEMA and DTRA to raise awareness of the IMAAC, which provides plume models for hazmat emergencies.

Federal Customers (select)

CONSTANT has been honored to support agencies across the federal government with multi-disciplinary initiatives, including:

- HHS Administration for Strategic Preparedness and Response (ASPR)
- Defense Threat Reduction Agency (DTRA)
- Federal Emergency Management Agency (FEMA)
- U.S. Geological Survey (USGS)
- U.S. Customs and Border Protection (CBP)
- Transportation Security Administration (TSA)
- U.S. Department of the Interior (DOI)

Federal Past Performance

Our commitment to innovation, our client-focused approach, and our record of success means we can deliver solutions to your agency's most pressing needs. Additional past performance includes:

- FEMA National Disaster Recovery Guidebook and National Exercise Division (NED) Capability Validation and Exercise Delivery Support
- TSA Intermodal Security Training and Exercise Program (I-STEP)
- CBP Flag and Disaster Policy
- ASPR Public Health Preparedness Training Courses and MCM Workshops
- USGS ShakeAlert Technical Industrial/Engagement Strategy
- DOI Technical Assistance for the NLE and Emergency Management Planning and Exercise Support
