

Public Health

Federal Agency Support

Our mission is to make the world a safer place.

Constant Associates (CONSTANT) is an award-winning solutions provider focused on building and sustaining resilient public health systems capable of withstanding both acute disruptions and long-term stressors. Our core capabilities include:

Public Health Engagement: We facilitate connections between federal policy and state and local implementation. We serve as a force multiplier, supporting development and operationalization of public health plans, policies, and engagement methodologies that strengthen national and regional readiness. We help convert national policy and funding to real-world readiness across jurisdictions.

Workforce Training and Development: We design and implement training programs translating public health policy into workforce readiness. Our curriculum development is grounded in adult learning principles, and we offer leading-edge workforce development solutions that promote continuous quality improvement and innovation.

Public Health System Resilience: We implement data-driven solutions to enhance federal agency policy development, strengthen processes, automate system elements, gain efficiencies, and monitor and improve program performance.

We also have deep experience supporting initiatives spanning pandemic preparedness, emerging infectious diseases, medical countermeasures, medical surge, communication, and more.
